

The Leaking Truth

34th Post - How I did it! Possibly helped EVERYONE OUT!

December 06, 2024

So I had this idea come to mind and wrote to Nand at the CIA about this concept for security measures to be put into place to solve criminal activity within the FOIA reporting system. The idea was to duplicate the FOIA file and then leave an open "variable" file and LOG THE SHIT out of it, I mean get every identification form possible using secret CIA software that can access the device/model/serial/SIM/IMEI/eSIM/Wi-Fi Network/Cell Network/Camera/etc...(OOoo I just had an idea what if the PUD power that supplies the computer or phone if it's plugged in could report an offender as well via the electrical systems?!? Now that's BRILLIANT!) That way they can really log who did what into a FOIA document which is basically their 'self guilty admission' they made that could be tied back TO THEM SPECIFICALLY! Talk about the reverse law of attraction idea/concept I started writing about in my book and coming to life for reals! I mean it's kind of genius when you think about it.. If they could get the cell networks and ISP's to help ID these people making these illegal acts posts we ALL would know who did what to whom!! It's security at it's finest and hopefully it helps change the way the CIA operates with more moral integrity, doubt it but it's a hope at least! It's an abstract idea that could really help people out, if I'm correct I heard maybe from God he was working on this concept to reveal those sinners who did all sorts of terrible things to others. My advice if you have a relationship with "God" just open up and tell him what you did here and make things easier because the sick fucks out there are going to get caught for what they have done, even Santa might be on board with this concept as well figuring out whose REALLY naughty and trying to cover it up via pretending to be someone else? There was a perfect moment for God to take a snapshot of the universe last night, to be able to sort all this messy data out once and for all, thus literally clearing my good name because I am a good person after all.. I know people out there are doing things illegal to me and others and I will not stand for it happening on my watch so I'm glad this idea came to my mind.. If I heard correctly I may have actually hear Nand say if only he thought of this sooner he could have figured out so many high ranking people who committed offenses and then reported it to my FOIA document and higher ups, maybe

Nand has a thing against crime happening on his watch as well especially towards an innocent person too.. it was like a 'damn' moment, that was a great idea! I'm still working on further details on how to improve on it because Kenworth apparently said he found a way around that method, little fucker, the universe is going to nail him someday once we get him.. Teljkon was his last victim I guess and now he's working on me trying to steal my life/identity/etc. 901 Fifth on the top floor in DT Seattle is where I think he's hiding, window facing the Seattle Public Library with a cantenna to leach of the library Wi-Fi, it's what my SpeedTest keeps routing me to so that's gotta be him right? I'm also going to assume he drives a white Audi with Oregon plates on it parked in the parking lot in the building. I will not stand for crimes to be committed on me and my mind without putting up a fight! My method is documenting everything I can get my hands on and connect the dots the best I can to figure it all out. Nobody is going to get away with adding to my FOIA anymore, I will put an end to this once and for all! I said this shit ends with me, I mean it and mean those words.
